

Individual Liberty

Every American has Individual Liberty and we are born with liberty. This means we have freedom of expression, freedom of choice, freedom to protest, freedom from government control of our lives, freedom of political choice and freedom to choose our own moral ground to take a stand on what we believe!

With liberty comes the responsibility to be a good citizen. To educate yourself and attend school, be good in class, to work and pay your bills, pay your taxes when you grow up, and to help others when you can. Many American soldiers have died to guarantee that liberties remain a part of American life. We have the best liberties in the world.
