

Cat Mask

Directions: First, glue this paper to the painted side of a recycled cereal box. Then, cut out the cat face. Remember to cut out the eye holes. Now you have your mask! Decorate it with crayons, markers, glitter glue, feathers, string or other craft supplies. **To Wear:** Either glue the back of your mask to an empty paper towel roll, or an empty unrolling paper tube, for a mask handle. Or, you can poke holes in both sides of the mask and tie string so you can wear it.
