

# MONARCH BUTTERFLY

## Birth of a Butterfly

A mama butterfly lays all her eggs,  
Out pops a caterpillar, crawling on its legs.

The caterpillar first is rather thin,  
But then it eats till it bursts through its skin.

After growing nice and big,  
The caterpillar climbs on a leaf or twig.

It makes a shell where it hangs inside,  
Then the shell cracks, and the parts divide.

Inside the shell, a change was going on,  
The form of the caterpillar now is gone.

When the shell opens, what comes out?  
A beautiful butterfly fluttering about.
