# Help Camilla sort the shapes.

Directions: Cut out the shapes on the bottom and glue in the correct boxes.

The illustration shows a girl named Camilla with curly hair and a bow, standing in the center. She is positioned between four large rectangular boxes arranged in a 2x2 grid. Each box contains a heart-shaped label with a shape name: 'Squares' (top-left), 'Circles' (top-right), 'Triangles' (bottom-left), and 'Other Shapes' (bottom-right). The boxes are currently empty, intended for the student to place cut-out shapes.

A collection of 14 geometric shapes arranged in two rows, each enclosed in a dashed-line box for cutting. The shapes are: Row 1: a square, a hexagon, a triangle, a heart, an oval, a five-pointed star, and a rectangle. Row 2: a triangle, a circle, a square, a large circle, another triangle, another square, and a cross.
