DENTAL HEALTH MOBILE

1. Print two copies of this page. Color the mobile pieces with Crayola® crayons, markers or colored pencils. Glue them onto cardboard, for example a recycled cereal box. Cut out each mobile piece.

2. Punch a hole, with a hole punch, where the dotted line circle appears on each piece. Tie different length pieces of yarn or ribbon to the pieces.

3. Use the hole punch to punch holes in a recycled plastic lid. Tie the free end of the string to the lid. Then hang up your mobile and inspire good dental health.
