

LAB EQUIPMENT

What are these objects called? What is their use? Where are they in the lab?

In this activity, you will learn the names and uses of these pieces of science **equipment**. You will also learn where to find the equipment that we use to be safe in the lab.

1. Look at the pictures of science equipment. Each piece of equipment is labelled with its English name. If you know the name of the object in your own language, write the word(s) beside the picture.
