

## Little House in the Big Woods

www.LapbookLessons.com

The Smokehouse

Color the smokehouse, and attach the door with a piece of tape or string.

Inside you can show hickory chips, or glue a piece of chip (like from BBQ) chips on wood, and a little strip of hickory smoke (light smoke) used in cooking.

For a snack, have meat jelly, or if you have a smoker and some wild game, make some meat jelly.

Optional Craft: With children cut out shapes of meat and spread them on some rope, from top to bottom.

Cultural Activity: The air around the smokehouse (like that) like to do that they'll need to use their sense of...

Please bring money & pairs of socks... use your sense to say "Dear"

Please bring (bring) 4 bags of yarn...

Please gather the sticks from the yard...

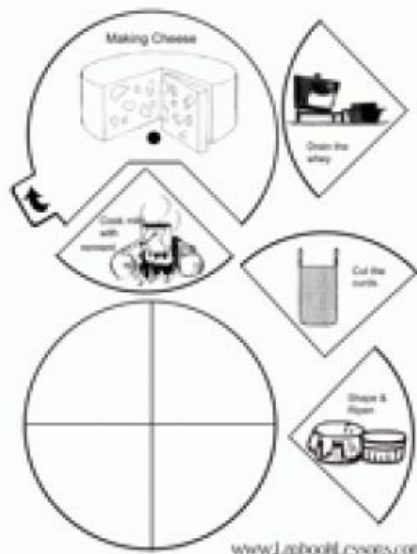

etc...

Christmas Mittens

Color these mittens with your favorite design. Then cut out the labels and glue them over the correct mitten.

Left

Right

Cut out and fold into three's. Cut a slot on the bottom line. Try and pick up a bag of nuts and let your child taste them. On the inside write about the nuts taste. Did you like them?
