

# 10 Plagues Match Game Continued

by Marie Scott 2014 serendipityhollow.blogspot.com

Print two sets of cards and cut them out. Lay all cards face down in rows. Players take turns trying to find a match by asking to see two cards. If the cards are a match, take them out of the game. If the two cards are not a match, turn them face down again and let the next player take a turn. Continue until all matches are found.
