

FRACTION CHEESEBURGER BUFFET

Directions:

1. Cut out each circle. Color each piece of food.
2. Make many different combinations of cheeseburgers to help you learn fractions.
3. For example, take a whole bottom of bun, place $\frac{1}{2}$ meat, $\frac{3}{4}$ cheese, $\frac{1}{3}$ lettuce, $\frac{5}{6}$ tomato, and $\frac{5}{8}$ top of bun, on top of each other.
4. Make up your own fraction combinations to serve different cheeseburgers in the buffet.
