

LET'S EXPLORE

THE WATER CYCLE

Hi I'm Renée Raindrop
Come with me on
a trip through the
Water Cycle.

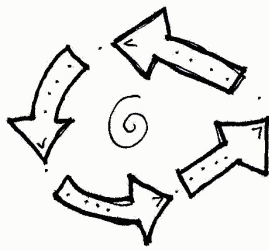

1.

Whee! I start
as a raindrop
falling from the
sky.

4.

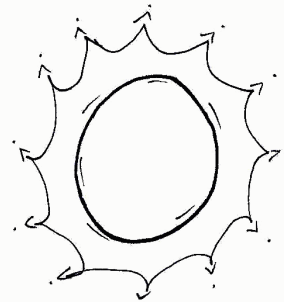

As I rise, I cool
and gather into
thicker rain clouds.

2.

I collect with
other rain drops
in rivers, lakes,
and oceans.

3.

The sun warms
me up and turns
me into vapor.
Up, up I go.
