

# Dog Mask

**Directions:** First, glue this paper to the printed side of a recycled cereal box. Then, cut out the dog face. Remember to cut out the eye holes. Now you have your mask! Decorate it with crayons, markers, glitter glue, feathers, or other craft supplies. **To Wear:** Either glue the back of your mask to an empty paper towel roll, or an empty wrapping paper tube, for a mask handle. Or, you can poke holes in both sides of the mask and tie string so you can wear it.
