

WATER WISE™

Water Saving Tips for Outside

- Use drought-tolerant plants
- Position sprinklers to only spray grass & flowers
- Mulch flower beds to reduce water loss
- Don't water when it's windy
- Use a nozzle that turns off automatically when washing cars
- Maintain sprinkler system to keep its efficiency
- Sweep rather than hose off sidewalks, patios and driveways
- Cover swimming pools when not in use to prevent evaporation
- Locate your master water shut off
- Test water shut off valve frequently
